Email: info@lcea.ie

Introduction

The Greener Homes Scheme provides assistance to homeowners who intend to purchase a new renewable energy heating system for either new or existing homes. The scheme is administered by Sustainable Energy Ireland (“SEI”) and aims to increase the use of renewable energy and sustainable energy technologies in Irish Homes.

Grants Available

The grants will be provided to homeowners who invest in new renewable energy based heating systems in the following categories and the grants amounts are as follows:

Heating systems	Typical Lower Price	Typical Higher Price	Grant Available
Solar Thermal Space and or Hot Water Heating	€800 per m ²	€1,300 per m ²	€300 per m ² (to max. 12 m ²)
Heat Pump - Horizontal Ground Collector	€13,000	€15,000	€4,300
Heat Pump - Vertical Ground Collector	€18,000	€21,000	€6,500
Heat Pump - Water (well) to Water	€12,000	€14,000	€4,300
Heat Pump - Air Source	€12,000	€13,000	€4,000
Wood Chip or Pellet Stove	€2,000	€5,000	€1,100
Wood Chip or Pellet Stove with Integral Boiler	€4,000	€8,000	€1,800
Wood Chip or Pellet Boiler	€9,000	€16,000	€4,200

What to do next

For more information about the scheme, please contact SEI

Phone 1850 734 734

Email greenerhomes@sei.ie

You can also download the necessary documents to apply (guide and application form) from their website

www.sei.ie/greenerhomes

Applications should be sent to: Greener Homes Scheme, Sustainable Energy Ireland, Glasnevin, Dublin 9.

Your local energy agency

There are 15 energy agencies in Ireland all part of the Association of Irish Energy Agencies (AIEA). Your local agency can help you by giving you information on energy efficiency and renewable heating systems. Your Local Energy Agency is the **Limerick Clare Energy Agency**.

“The Limerick Clare Energy Agency aims to provide energy solutions for sustainable development in the region. The agency will provide energy services to all economic sectors and the general public, promoting and facilitating efficiency sustainability in the production and consumption of energy”.
